Swift Playgrounds	Free		4,5,6,7
King of Maths	R49.99		4,5
Your son will need a cheap pair of headphones which can be carried over from previous years if they are still in working condition. If not, a new pair will need to be purchased.			
Please note that prices of paid apps are dependent on the exchange rate and may vary.			

Should your son be entering the Senior Phase, or is new to the school and does not yet have an iPad, please see below for minimum requirements.

Hardware Requirements

Your son's iPad must have a 64bit processor and be able to run iOS 11. It should also have a screen protector and a protective case with your son's name and class clearly marked on it. We advise against having a 3G enabled iPad, as your son is not permitted to use 3G on his iPad at school, given the that it bypasses the school firewall and limits our ability to filter what you son has access to on the web.

The following is a list of viable options (current prices taken from the iStore):

- iPad (fifth-generation) from R5499 (recommended)
- 12.9-inch iPad Pro from R11999
- 9.7-inch iPad Pro from R8999
- 10.5-inch iPad Pro R10999
- iPad Air range from R7499
- iPad mini 4 from R7000

Microsoft 365 Account

At the start of Grade 4 all Clifton boys are issued with a Microsoft 365 Account that comes with a @cliftonmail.co.za email account and a license for the full Office suite. This can be accessed via the Office.com portal once the boys have received their login details. This license is valid while your son remains at Clifton, however, any boy who violates the Code of Conduct within the digital forum will have their license revoked or restricted. This account is still the property of Clifton School and is **not private**. We recommend that while your son remains in the Prep, you do not allow him a private email account, as this can facilitate the creation of social media accounts and access to inappropriate material on the web.

Social Media Age Restrictions

Please take note of the age restrictions specified in the Terms and Conditions for various applications and social media. We urge parents to be vigilant and to ensure that they are aware of all the platforms that boys access and how they communicate.

Platform	Age	Platform	Age
Twitter	13	WhatsApp	16
Facebook	13	Vine	17
Instagram	13	Tinder	17
Pinterest	13	Path	18
Google+	13	YouTube	13-18 with parental consent
Tumblr	13	WeChat	13-18 with parental consent
Reddit	13	Keek	13-18 with parental consent
Snapchat	13	Kik	13-18 with parental consent
Secret	13	Foursquare	13-18 with parental consent
Pottermore	13	Flickr	13-18 with parental consent
LinkedIn	14		

In short, your son should not be interacting with social media, unsupervised, until he reaches High School. To do so violates the Terms of Service of these platforms and may expose you son to online interactions that he does not yet have the emotional maturity with which to cope.
