

COLLEGE IPAD REQUIREMENTS 2018

Clifton is committed to being a paperless school and to taking advantage of the latest technologies and the benefits of electronically enhanced learning. All boys from Grades 8 to 12 must own an Apple iPad capable of running iOS10 and will need to register their device with the school's System Administrator. Registration will involve installing a Mobile Device Management (MDM) profile on the device and each boy will receive a network username and login. Boys can access the database of notes relevant to their subjects and will have Internet access. Please be advised that we do not allow "jailbroken" devices or alternative DNS and that we have strict terms of use which are outlined in our **eLearning Policy**, available on the school website. iPads are used primarily for viewing digital content and boys will still produce the majority of their own work with pen and paper and will still engage with traditional textbooks and a variety of other sources and media.

Please take note of the specifications and requirements below:

iPad Specifications

Our minimum requirement is a device that can run iOS10 and we recommend:

- iPad Air, wifi
- iPad Air 2, wifi
- iPad Mini 2, wifi
- iPad Mini 3, wifi
- iPad Mini 4, wifi
- iPad (Fifth generation), wifi
- iPad Pro, any model

We would recommend the following range of iPads (Fifth generation) from the Apple store.

iPad Wi-Fi 32GB - Space Grey
R5499

iPad Wi-Fi 32GB - Silver
R5499

iPad Wi-Fi 32GB - Gold
R5499

<https://www.myistore.co.za/ipad/view-all>

The minimum capacity requirement is 32GB.

*Please note that the **iPad 2** is insufficient for our needs.

The following apps are required for boys:

College	Current Cost
Keynote	Free
MiEbooks (Grades 8-11)	Free
Goodreader 4	R99.99
Explain Everything	R150.00
